

Report title

Short descriptive subtitle

Prepared for: **Client organisation**

Analyst Name — Neudata Consulting Ltd

Date: **02-10-2026**

Reference: NDC-2026-000

CONFIDENTIAL

Summary

One-paragraph executive summary: the question, the data, the approach and the headline finding. Keep it readable by a non-technical decision-maker.

Contents

1	Introduction	2
2	Data and methods	2
3	Results	2
3.1	Descriptive summary	2
3.2	Main analysis	2
4	Discussion	2
5	References	2
A	Appendix	3

1 Introduction

Describe the background, the client's objective and the questions this report answers.

Key findings

- Finding one, stated plainly with its size and uncertainty.
- Finding two.
- Recommendation or implication for the client.

2 Data and methods

Summarise the data sources, inclusion criteria, variables and statistical methods. Refer to the statistical analysis plan for full detail (Lumley 2004).

3 Results

3.1 Descriptive summary

Table 1 summarises the example data.

Table 1: Mean tooth length by supplement and dose (example data).

Supplement	Dose (mg/day)	Mean length
OJ	0.5	13.2
VC	0.5	8.0
OJ	1.0	22.7
VC	1.0	16.8
OJ	2.0	26.1
VC	2.0	26.1

3.2 Main analysis

Figure 1 shows the relationship using the Neudata palette.

4 Discussion

Interpret the results, note limitations and set out recommendations.

Reproducibility

This report was generated from code. Software versions are listed in the appendix.
